

THE FORMULA FOR SUCCESS®

Stamm 30®

Stamm 30® is a highly concentrated source of proteins, vitamins and minerals, designed for foals, weanlings, yearlings, gestating mares, lactating mares, breeding stallions and performance horses.

Stamm 30 is easy to use in conjunction with any type of feeding program or management application:

- It can be fed with oats or other unfortified grain to provide “balanced” nutrients for horses of all classes and ages.
- Stamm 30 can be mixed with textured feeds or pelleted rations when additional nutrient fortification is needed.
- Fed alone to mature horses and ponies being maintained on all forage diets (easy keepers) and to young growing horses experiencing developmental orthopedic disease (physitis, contracted tendons, osteochondrosis) as a low calorie source of essential proteins, vitamins and minerals.
- Used as a “top dress” for performance diets when the stress of high levels of physical activity requires the maximum level of nutrient fortification.

Stamm 30 incorporates the most advanced developments in the field of equine nutrition:

- BMC™ (BUFFERED MINERAL COMPLEX)
- BIOAVAILABLE TRACE MINERALS
- NATURAL VITAMIN E
- YEAST CULTURES
- SELENIUM YEAST

NUTRITIONAL ANALYSIS

PROTEIN	30%
DIGESTIBLE ENERGY	1245 KCAL/LB
LYSINE	1.9%
METHIONINE	0.5%
THREONINE	0.2%
FAT	3%
FIBER	7.5%
ADF	12.5%
NDF	18%
CALCIUM	3.3%
PHOSPHORUS	2%
MAGNESIUM	0.8%
COPPER	195 PPM
SELENIUM	2.5 PPM
ZINC	560 PPM
VITAMIN A	35,000 IU/LB
VITAMIN D	4,000 IU/LB
VITAMIN E	500 IU/LB
VITAMIN C	750 MG/LB
BIOTIN	0.6 MG/LB

THE FORMULA FOR SUCCESS®

Inclusion of BMC™ (Buffered Mineral Complex) into Stamm 30* provides three key research-proven benefits to horses:

- 1. IMPROVED GASTRIC HEALTH** – increases buffering capacity by 2.7 fold in acid conditions typically seen in the stomach.
- 2. IMPROVED HINDGUT HEALTH** – 54% better capacity to buffer acids in the horse's hindgut compared to the same unfortified feed.
- 3. IMPROVED BONE DENSITY** – including BMC produces a 3-fold greater increase in bone density in the dorsal cortex of the cannon bone.

Stamm 30 includes the utilization of bioavailable trace minerals to increase the availability of these critical elements needed for proper skeletal development and maintenance of the growing, mature and performance horse.

Research has shown that natural sources of vitamin E have greater bioavailability than synthetic or man-made sources. In a study of Thoroughbreds in training, natural vitamin E was found to be 180% more bioavailable than synthetic forms of the vitamin. Among other physiologic responsibilities, vitamin E contributes most generously to the horse's antioxidant defenses. Antioxidants are especially important to equine athletes because they help horses recover more quickly from muscle soreness following intense exercise. Stamm 30 incorporates this revolutionary form of vitamin E.

Saccharomyces cerevisiae, a blend of yeast cultures incorporated into Stamm 30 and designed specifically to complement the digestive system of the horse ensures increased microbial activity. Each source of yeast is individually responsible for unique and improved enzyme production that enhances protein, starch, macro mineral (Ca, P, Mg), micro mineral (Cu, Zn, Mn) and fiber digestion.

Selenium yeast is a highly available form of the essential element, which is included in Stamm 30. Mares receiving selenium yeast expel their placentas in half the time it takes other mares, and their colostrum and milk contain higher levels of selenium. Studies done on exercising Thoroughbreds supplemented with selenium yeast indicated that horses had a higher retention rate of selenium than those supplemented with the inorganic form.

*BMC is included in the bagged version of Stamm 30. When Stamm 30 is used as an ingredient in other Hallway Feeds products, it does not utilize BMC unless noted by the BMC icon at the bottom of the page.

SUGGESTED FEEDING RATES WHEN FED ALONE OR WITH UNFORTIFIED GRAINS (LBS/DAY)

FOAL	0.5 - 1
WEANLINGS	1 - 1.5
YEARLINGS	1 - 2
LACTATING MARES	2 - 3
BREEDING STALLIONS	1.5 - 2
PERFORMANCE HORSES	2 - 3
PREGNANT MARES	2 - 3

SUGGESTED FEEDING RATES WHEN FED WITH COMPLETE FEEDS (LBS/DAY)

STAMM 30	COMPLETE FEEDS
2	0
1	3 - 4
0	6+
